

Congratulations on your purchase MYLO - an artificial intelligence-based drowning detection system for residential swimming pools.

With the exceptions detailed below, this warranty covers any defect or malfunction of the system for a period of 12 months from the date on the invoice.

To activate the warranty a form needs to be submitted in CORAL SMART POOL website <https://coralsmartpool.com/warranty/>

- The warranty period begins from the day the product is received.
- The warranty is not transferable. It extends only to the original buyer.
- The following is NOT covered under this warranty:
 - Any breakage of any of the system parts.
 - Damage caused by fully submerging the system in the water.
 - Damage caused by water penetrating a system that was left outside un-installed exposed to weather damage.
 - Damage caused to the pool unit which is the result of stepping on it.
 - Wi-Fi communication cannot be guaranteed and is dependent on the quality of your Wi-Fi router and its distance to the system.
 - Damage caused by in-appropriate installation (not according to user-manual instruction)
 - Damage caused by Incorrect use, which includes any use differing from the described intended purposes, and guidelines in the user-manual.
 - Damage caused by using MYLO outside of the Water.
 - Damage caused by using MYLO in the pool with the water level below the water level mark on MYLO tube.

Before using the system, please read carefully the [Terms of Use](#) on the website and the warnings on the [Quick Start Guide](#) provided with the product as they may effect on your warranty.

IMPORTANT:

- Do not attempt to disassemble any parts of MYLO's pool unit or home unit since it will completely void this warranty.
